

Journal of Basic and Applied Engineering Research (JBAER)

Volume 2, Number 13; April-June, 2015

Contents

Electronic Structures of GaX(X=P, As) under Induced Pressure: A First Principle Study Kh. Kabita and B. Indrajit Sharma	1064-1067
Entropy Studies of Photons in Pb-Pb Interactions at 158 A GeV Anita Sharma and Sunil Dutt	1068-1071
Effectiveness of Lemon Peel Oil in Control of Oxidation of Sunflower Oil during Microwave Heating Sagarika Bhattacharyya and Ankhi Maiti	1072-1074
Analysis of Submerged Flexible Vegetation for Open Channel Flow A. Ghosh and K. Bandyopadhyay	1075-1080
Role of Heat of Mixing in Swift Heavy Ion Induced Effects Nisha Bansal, Sarvesh Kumar and Saif Ahmad Khan	1081-1085
DETERMINATION OF MIXED MICELLIZATION PROPERTIES OF BIS-SULFOSUCCINATE GEMINI AND SODIUM DODECYL SULPHATE USING STEADY-STATE FLUORESCENCE QUENCHING Vinayika Singh and Rashmi Tyagi	1086-1090
Importance of Characterisation Techniques in Applied Material Deepali Maidh and Bashir Ahmed	1091-1097
Weighted differentiation Composition Operators from Fractional Cauchy Transforms to Weighted Type Spaces Ram Krishan and Ajay K. Sharma	1098-1099
Application of Community Detection Algorithms of Social Networks in E-Governance Shreekanth Prabhu M and Kavithakala C	1100-1103
Multi Parameter Analysis of Human Emotional States C.R. Parvathy, Meghna Hukeri, Santhoshi N Krishnan and M. Anburajan	1104-1109

Comparison of Routing protocols in Vehicular Ad Hoc Networks Kapil Sharma	1110-1112
QoS Issues in Multicast Communication Kapil Sharma	1113-1115
A Numeric Approach to Mine Frequent Patterns from Very Large Database Kapil Sharma and Sachin Mittal	1116-1119
Weak Non-Linear Waves in Fluid with Radiation Using Characteristic Method Nahid Fatima and Deepika	1120-1121
Study on Anodic Oxide Films on Tantalum in Succinic Acid at Different Temperatures Bal Raj Deshwal and Neha Kundu	1122-1127
Applications of Hydrological Model SWAT on the Upper Watershed of River Subarnarekha with Special Reference to Model Performance and its Evaluation Pipas Kumar and Varun Joshi	1128-1134
Bounds on Information Divergence Measures in Terms of Hellinger Discrimination Ram Naresh Saraswat and Ajay Tak	1135-1138
Divergence Management in Perturbative QCD Shafeeq Rahman Thottoli and Abdul Salih P P	1139-1141
Optical Properties of Y₂O₃-Doped ZnO Thin Films Sputtered in an Ar:O₂ Gas RF Magnetron Sputtering Technique Sowjanya M., Pamu D., Chowdhry R. and Jayaganthan R.	1142-1148
Renewable Refrigeration Technique: A Theoretical Perspective for Food Preservation Md Iqbal Ahmad, Subhro Chakraborty, Surajit Sur, Anish Chakraborti Prasun Das, Pulak Mandal, Tandrima Ganguly and Sandip Dutta	1149-1152
Multiplicity Fluctuations of Photons in Pb-Pb Interactions at 158 A GeV Sunil Dutt	1153-1155
Image Processing Technique for Oil Spill Dispersion Iltaf Zafar and Susham Biswas	1156-1158

Evaluation of Protocols to Support IP Mobility in Aeronautical Communications Kapil Sharma	1159-1162
Vertical Handoff decision based on MADM for Network selection in 4G Heterogeneous Wireless Networks Kapil Sharma	1163-1166
Malonic Acid Mediated Synthesis of One Atom Thick Graphene Sheets and its Supercapacitor Applications Anil Kumar and Mahima Khandelwal	1167-1167
